

FAQs: JD TIMES SQUARE MUST-HAVE RETROS IN-STORE DRAWING

Last Updated 11/2/2020 (*In-store drawing for 11/8 Release Date cancelled*)

Q: How does the in-store drawing work?

A: Every week, you can enter a drawing in-store for the chance to score an invite to the JD Times Square store to purchase a pair of must-have Air Jordan Retros being released the following weekend. If your name is drawn, we'll call you with the date and time you need to be at JD Times Square to make your purchase. No purchase necessary to enter. *Keep reading for details.*

Q: If I enter the drawing and my name is drawn, do I get a pair of Air Jordan Retros?

A: NO. You get the chance to purchase a pair of Air Jordan Retros. You'll need to be at JD Times Square on the release date at the designated time to make the purchase. Sorry, we can't guarantee that you'll be able to purchase a pair of Retros in your style or size of choice.

Q: How many times can I enter the drawing?

A: For in-store drawing entries, you're allowed ONE entry PER Air Jordan Retros PER release date (so, if there are 3 different styles of Air Jordan Retros being released on the same release date, you can enter once for each of those 3 different styles). Select A-List STATUS members can enter a Sweepstakes to get a reservation to purchase a pair of Air Jordan Retros on a release date, too. For more info on this Sweepstakes, visit our [STATUS Times Square blog post](#).

Q: What are the Must-Have Retro pick up dates?

A: These are the same as the Must-Have Retro release dates, which are on our [blog](#). If you enter and your name is drawn, you can make your purchase during a specific block of time at JD Times Square on the release date (before the store opens to the general public).

Q: When and where can I enter the in-store drawing?

A: It depends -- different entry rules apply if you want to buy Must-Have Retros during JD Times Square's opening weekend (10/16 to 10/19) versus during a release date after the opening weekend (10/25, 11/1, 11/8, 11/15). *Keep reading for details.*
